

POSOW

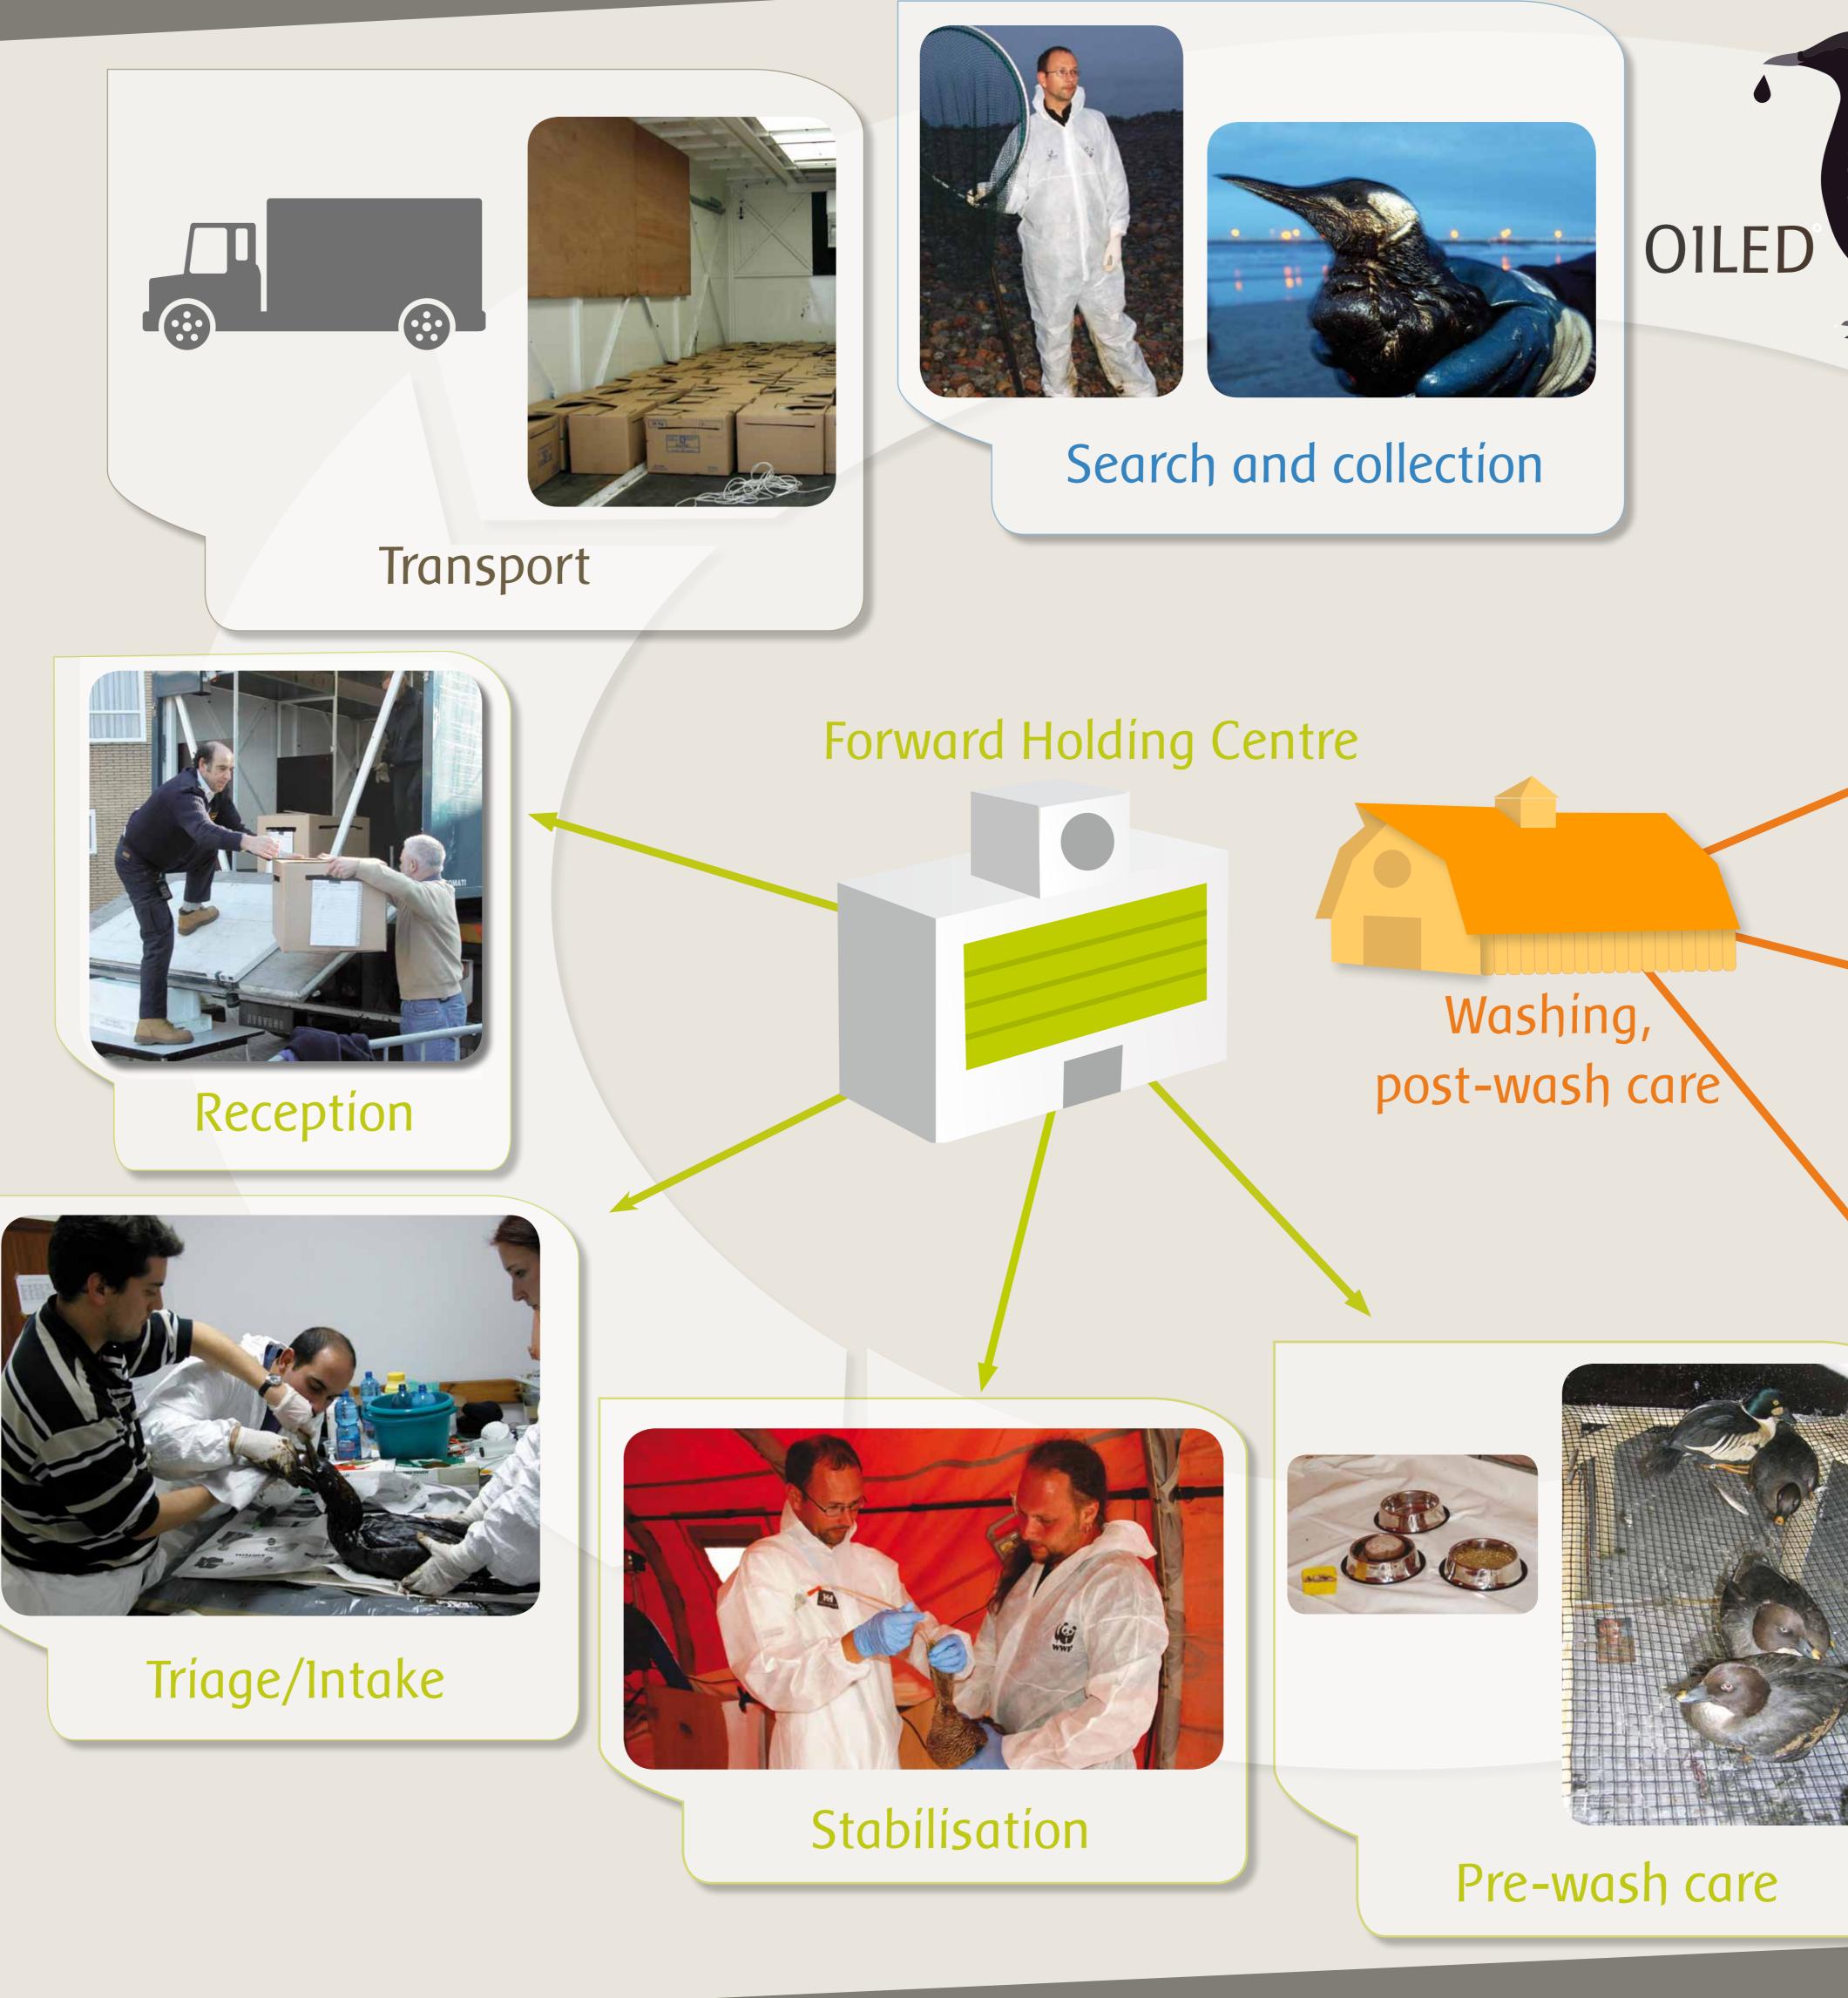

Preparedness for Oil-polluted Shoreline cleanup and Oiled Wildlife interventions

## **OVERVIEW**

In an oiled wildlife response animals are captured from an oiled environment and transported to a specialized facility where they receive appropriate care, are cleaned and rehabilitated. From there they can be released into a clean environment. If done well, animals will regain their chances for long term survival.

## OILED WILDLIFE RESPONSE

REMIPEC POSOW is a project co-financed by the EU under the Civil Protection Financial Instrument developed in cooperation with ISPRA, Cedre, Sea Alarm and CPMR and coordinated by REMPEC a regional Centre of the Barcelona Convention

ISPRA Istituto Superiore per la Protezio e la Ricerca Ambientale
